INDEX TO VOLUME XI.

ÆROSTATIC powers, 339
Amphibia, D. H Barnes on, 268
Amphiuma, 279
Anthracite of Rhode-Island, Editor on the, 78
Antiseptic influence of Chlorine, 197
Atmospheric Appearances, 325
Atwater, Caleb, Observations on Ohio, 224

Barnes, D. H. on Batracian Animals, 268
Batracian Animals, D. H. Barnes on, 268
Beck, L. C., Botany of Illinois and Missouri, 167
———, Grevilleanum Serratum, 182
Benedict G. W., Notice of a Meteor, 120
Biotina, 264
Blowpipe, Hydrostatic, 135
———, Compound, 142
Botany of Illinois and Missouri, 167
Bread used to feed Horses, 397
Breislakite, 250
Bufo, 270.
Butterfly Collector's Vade Mecum, 391

Caloric, the Nature of, 355
Caricography, (continued,) by Prof. Dewey, 147, 304
Cavolinite, 259
Chemical Philosophy, Dana's, 194
——— Science, the present state of, 349
Chemistry, Webster's Manual of, 377
Chlorine, antiseptic influence of, 197
Christianite, 261
Chyometer, Prof. Hare's, 126
Climate of Ohio, 224
Coal, formation of Virginia, Pierce on the, 54
——, Anthracite, of Rhode-Island, 78
———, of Pennsylvania, 91
Cold, unprecedented, 195
Copper, foliaceous, 267
Crank Problem, by A. B. Quinby, 338
Crystalline substances from plants, 391
Currents upon the earth's surface, 100

Dana's Chemical Philosophy, 194
D'Arcet on the Medicinal use of bicarbonate of Soda, 388
Davina, 254
Dewey, Prof. C., Caricography, 147, 304
———, Meteorological Observations, 59
Divining Rod, 201
Doolittle, Isaac, cutting of cast iron by soft iron, 384
Dory, a new species of, 144
Dwight, Rev. S. E., Eruption of Lakes in Vermont, 39

Earth's surface, Currents on the, 100
Eaton's Geological Survey, 196
Editor on Anthracite, 78
Egypt, Education in, 385

Electricity, the effects of, 359
Emmons, E., on the Grevilleanum Serratum, 183
Equilibrium, formulæ concerning, 398
Explosive Engine, 104

Field, Gen. Martin, correction by, 384
Fluids, the upward forces of, 110, 339
Fuel, Dr. E. North on, 66

Gas-reservoirs, self-regulating, 140, 142
Geddes J., Geology of the Ontario Valley, 213
Genet, Edmund C., on the upward forces of Fluids, 110, 339
Geology of the Ontario Valley, 213
Gold alloyed with Rhodium, 298
Goodrich, J., on the Sandwich Islands, 2
Gravity Specific, Prof. Hare on, 121
Grevilleanum Serratum, 183

Halos, solar, 325
Hare, Prof. R., on Hydrometers, 115
——————— Specific Gravity, 121
——————— Chyometer, 126
——————— Litrameter, 133
——————— Hydrostatic blowpipe, 135
——————— Gas-reservoirs, 140, 142
——————— Compound blowpipe, 142
Hawaii, volcanic character of, 1
Hayden's Geological Essays, 196
Heat of July, 1825, 195
Hildreth, Dr. S. P., notes on Ohio, 231
History, natural, the study of, 218
Horses, nourishment of, 397
Humboldtilhite, 251
Hydrochloric acid, experiments concerning, 393
Hydrometers, Prof. Hare on, 115
Hydrostatic powers, 339
——————— blowpipe, 135
Hyla, 273

Iodine produces absorption of the breasts, 395
Iron, cast, cut by soft iron, 384
——, process for charging water with, 392

Kirauea, volcano of, 362

Lagrange, correction in his formulæ, 398
Laisné on chlorine, 197
Lakes in Vermont, eruption of, 39
Lea, Isaac, on the study of Nat. History, 218
Lightning, effects of a stroke of, 359
Linnæan Society of Paris, 380
Litrameter, Prof. Hare's, 133

Maclure, W., notice of New-Harmony, 189
Mastodon, fossil remains of, 246
Menopoma, 278
Meteor, notice of, by G. W. Benedict, 120
Meteors, observations on, by A. C. Twining, 184
Meteorological observations by Prof. Dewey, 59
Minerals, foreign, collections of, 197
———, collection of, 385
———, new Vesuvian, 250
Missionaries, observations on the Sandwich Islands, 1

Mitchill, Dr. S. L., on the Zeus crinitus, 144
Morey, Samuel, explosive engine, 104
Muriatic acid, experiments concerning, 393

Newton's Principia, review of, 238
North, Dr. Elisha, on fuel, 66

Ohio, observations on by C. Atwater, 224
—— notes on by Dr. S. P. Hildreth, 231,
Olmsted, Prof., present state of chemical science, 349
Ontario Valley, geological features of, 213
Organic remains of Ohio, 227
Owen's establishment in Indiana, 189

Paris, Linnæan Society, 380
Pascalis, Dr. F., upward forces of fluids, 110, 339
Pastils, alkaline digestive, 388
Peach trees, 194
Pierce, J., shell marl and coal regions, 54
Pinite, error concerning, 384
Pipa, 271
Plants crystalline substances from, 391
Printing, new kind of stereotype, 386
Proteus, 284

Quinby, A. B., on water-wheels, 333
————, on the cran, 338

Rana, 273
Refraction, double, 385
Reliquiæ diluvianæ, 196
Reptils, doubtful, monograph of, 268
Review of Newton's Principia, 238
Rhodium with gold, 298
Rod, divining, 201
Russian drinks, 392

Salamandra, 276
Sandwich Islands, observations on, 1, 362
Sea Serpent, 196
Shell marl region of Virginia and Maryland, 54
Siren, 281
Skins, preservation of, 397
Soot, analysis of, 386
Sugar from beets, 396
Sulphurous acid, the reduction of, 392

Topaz of Connecticut, 192
Twining, A. C., observations on meteors, 184

Van Ransselaer, Dr. J., on the fossil mastadon, 246
———————— new Vesuvian minerals, 25
Vinification, treatise on, 396
Volcanic character of Hawaii, 1
Volcano of Kirauea, 362

Water-wheels, A. B. Quinby on, 333
Webster, Dr. J. W., manual of chemistry, 377

Zeus crinitus, described by Dr. Mitchill, 144
Zurlite, 254
